

OIA-1/76
5 January 1977

MEMORANDUM FOR: [REDACTED]
DDI Executive Officer

SUBJECT : Space Analysis and Evaluation

REFERENCE : Your Memorandum of 27 December 1976
Subject: Space Management Task Force

1. The Office of Imagery Analysis presently occupies some [REDACTED] square feet of space on the north end of the third floor [REDACTED] is managed and principally occupied by the National Photographic Interpretation Center. The OIA has been collocated with NPIC in [REDACTED] since its establishment (as the IAS) in 1967. This arrangement facilitates OIA's access to a variety of technical support services furnished by NPIC--but the separation of OIA from Headquarters hinders intimate association with the consumers of its products and consequently limits the effectiveness of the support OIA provides to the Agency's intelligence production and operations components.

2. About [REDACTED] square feet of the [REDACTED] presently in use by OIA is given up to internal corridors, air shafts, and other building services--leaving some [REDACTED] square feet of usable space. Approximately [REDACTED] square feet of the area is occupied by the four operating divisions, with the remaining [REDACTED] square feet used by the Production Support Staff, the Administrative Staff and the Office of the Director.

3. An additional [REDACTED] square feet of space was made available to OIA by NPIC in late December 1976. This space is being renovated and will provide some [REDACTED] square feet of usable space. This additional space will alleviate crowding and accommodate the projected increase in OIA personnel through 1979. We expect to occupy this new area about mid 1977.

~~ADMINISTRATIVE USE ONLY~~

OIA-1/76

SUBJECT: Space Analysis and Evaluation

4. The potential benefits and costs of moving OIA [redacted] to Headquarters were addressed in detail in a recent memo on that subject addressed to the Associate Deputy Director for Intelligence (IAS-45/76, 2 June 1976). A copy of this memo, which appears to address all the space-relevant information you requested, is attached.
